POLITICAL SIGNS & YOUR HIGHWAYS
Rules & Regulations Regarding the Placement of Political Signs Near Highway Right-of-way

Steve Sisolak
Governor

Kristina Swallow, P.E.
Director
Nevada Department of Transportation
Right-of-Way Division
1263 South Stewart St.
Carson City, NV 89712
(775) 888-7480

2020 Election Season
No political sign can be placed within state highway rights-of-way.

As you conduct your campaign for public office, please keep in mind that it is illegal to place signs within the right-of-way of state highways. State highways include not only the well-numbered rural routes, but also many county roads and city streets. The provisions of Nevada Revised Statute 405.020, 405.030 and 405.110 and Nevada Administrative Code 410.440, prevent the placement of any advertising signs, including political signs, within state highway right-of-way or roads, which are owned or controlled by the Nevada Department of Transportation (NDOT). In addition, the federal and state “Highway Reunification Acts” limit the placement of any sign on private property if that sign is located within 660 feet of a National Highway System (NHS) route. NHS routes include all freeways, interstates, expressways, most U.S. routes and some state routes including several city streets (see maps).

NDOT has previously published several notices regarding the erection of political signs. This pamphlet is intended to summarize NDOT’s enforcement of the laws on political signs and supplements the more detailed regulation. The term “political sign” includes any temporary or portable display or device advertising for or against a candidate for public office or a political party or political point of view.

Rules for state highways:
No signs are permitted in the state highway right-of-way. This includes the right-of-way along freeways, interstates, expressways, highways, and many city streets. NDOT’s right of way in urban areas often includes any sidewalks and some clear distance on either side of the street.

NDOT employees will remove signs erected in the highway right-of-way and usually take them to the nearest maintenance station. In most cases, owners of the sign or their representatives can drop by the station to get their signs. NDOT will try to remove the signs so as not to damage them. Removed signs will be retained for 30 days and then disposed of.

If you have a question about the right-of-way for state highways, please call the nearest NDOT district office. In Clark County call the District I Office in Las Vegas at (702) 385-6540, in Tonopah call (775) 482-2300, in northwestern Nevada call the District II Office in Sparks at (775) 834-8300, in Winnemucca call (775) 623-8000, in northeastern Nevada call the District III Office in Elko at (775) 777-2700, and in Ely call (775) 289-1700.

Additional rules for the National Highway System:

Political signs erected on private property that is adjacent to a state highway may be erected no more than 60 days before a primary election and must be removed within 30 days after the primary election. Signs for candidates or questions appearing on the general election ballot do not have to be removed until 30 days after the general election.

A permit is not required for small political signs (4’ x 8’ or smaller) that are placed on private property near the NHS.

General Rules:
The following rules apply to all signs located near state highway right-of-way including NHS routes:

Political signs must not distract drivers.
The sign cannot resemble official traffic signs.
The sign cannot block view of on-coming traffic.

Apart from state requirements, local governmental agencies can and do have varying criteria regarding placement of political signs on city and county roads.

These local restrictions vary greatly among the various entities and must be checked locally.

For further information, or if you have any questions, please call the Nevada Department of Transportation’s Right of Way Division. In northern Nevada, (775) 888-7480 and in southern Nevada, (702) 385-6540.

National Highway System routes in Nevada
(see enlarged area maps on other side)

Signs which have been removed are normally taken to the nearest NDOT maintenance station and may be recovered there.
